Bayesian multimodeling: technical meeting 1 org. issues

2024

General

- Talks: are still relevant
- Next meeting: when?
- The link to the scores can be found at the course page

Activites

- Repository requirements: PEP-8 at least
- Blog post: very drafty version must be ready on the 29th of October. Have a look at https://github.com/intsystems/IDA/tree/main
  - NOTE: the format of the blogpost differs (overview vs. presenting library)
- Documentation: structure of the documentation must be ready on the 29th of October. Discuss the engine of the documentation with a person responsible for the repo.
  - Sphinx: see ProjectTemplate by Andrey Grabovoy
  - mkdocs: see SoftwareTemplate-Simplified
- Tests: must be ready on the 19th of November with some high coverage. Discuss the framework of the tests with a person responsible for the repo.
  - Built-in: unittest + coverage.py
  - Current standard: pytest
  - let's choice some adequate coverage percent
- Algorithms: must be ready on the 19th of November.
- Publication: to discuss
